largest construction equipment companies

**11 of the top 15**

industrial manufacturers

**8 of the top 10**

automotive manufacturers

**15 out of top 25**

industrial supplies distribution companies

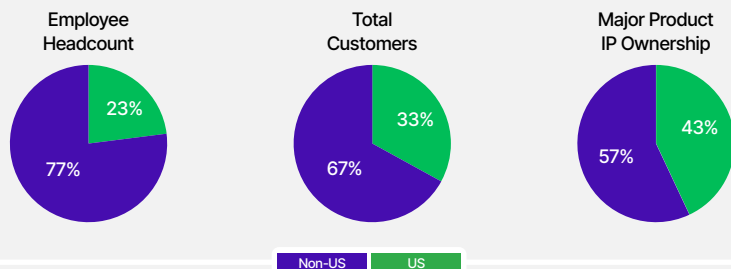

**9 out of top 10**

global hotel brands

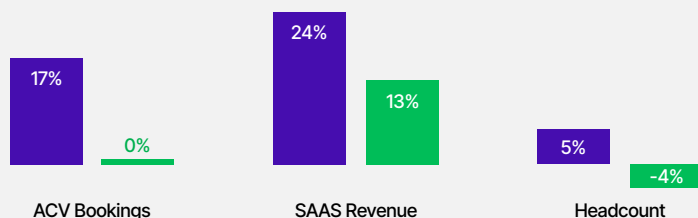

**10 of the top 15**

largest clothing brands

## Infor by the Numbers

### Infor Global Business Trends — Five Year CGR

## Deep AWS Partnership

Infor enjoys a longstanding and robust partnership with Amazon Web Services (AWS), both as a customer and a partner. Built on AWS, Infor takes advantage of AWS's multi-tenant infrastructure, operating from data centers in Frankfurt, Germany, as well as in Tokyo, Sydney, London, Montreal, Singapore, and the US. Generally, GenAI and LLM models are processed within our customers' hosted deployment region. With the planned launch of the AWS European Sovereign Cloud, Infor customers can have more control over where they locate their data within the EU, who can access it, and how it is used. Additionally, customers can conveniently transact in local currencies, including EUR, GBP, JPY, and AUD, through the AWS Marketplace.
